Parts of Presentation Creator's Main Window

The following are parts of the Presentation Creator main screen:

- Application Title Bar

The Application Title Bar is the same as most Windows applications.

- Menu Bar

The Menu Bar lists all options available in the application.

- Template Selection Bar

The Template Selection Bar allows selection of the PowerPoint Template to be used for the slides exported to PowerPoint. The templates included with Presentation Creator allow for standard or widescreen format and for various transition speeds.

- Expert Mode Entry Bar

Expert Mode Entry allows fast selection of hymns (or partial hymns) by number.

- Expert Mode Entry Box

Area for entering instructions for the hymns to add.

- Add to List Button

Button that adds hymns based on the specified instructions.

- Auto Add Chorus button

Clicking this button changes the process of adding hymns via Expert Mode Entry as is explained later in this document.

- ?

Clicking this button shows the detailed help information for Expert Mode Entry instead of the Hymn Selection List. Click it again to return to the normal view.

- Hymn Selection List

Hymn Text Search:									
Hymnal	#	Title	Key	Pattern	Start Pitch	Start Beat	Time	Parts	
HFWS	01005	Farther Along	F	3c	MI	7	9/8	Title.v1.v2.v3.v4,Chorus	
HFWS	01006	Magnify, O Magnify!	G	4	DO	1	4/4	Title.v1.v2.v3	
HFWS	01007	Hosanna	G	4	DO	4+	4/4	Title.v1.v2.Chorus	
HFWS	01008	How Long Till The Morning?	Em	4	DO	4	4/4	Title.v1.v2.v3.Chorus	
Matthew 21:9		Praise/Adoration - Of Christ							
			Verse 1:	Hosanna, hosanna, hosanna in the highest, Hosanna, hosanna, hosanna in the highest,				Arranger:	Reid Lancaster
			Verse 2:	Glory, glory, Glory to the King of kings; Glory, glory, Glory to the King of kings;				Composer:	Carl Tuttle
			Chorus:	Lord, we lift up your name, with hearts full of praise; So be exalted, O Lord, my God, Hosanna in the				Lyricist:	Carl Tuttle

The Hymn Selection List allows selection of hymns by browsing within the list of all hymns currently loaded into the application.

- Hymn Text Search Bar

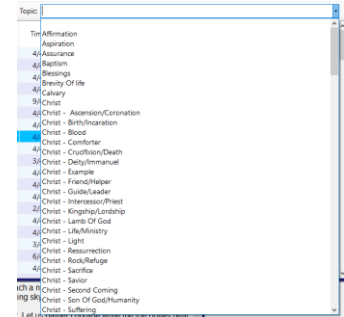

Hymn Text Search:

Topic:

The Hymn Text Search allows searching for a word or phrase in the Title, Verse Text Box, Scripture Box, Topic Box, or Individuals Box areas of a hymn.

- Topic Selection

The Topic Selection drop-down allows selection of a single topic. A hymn may have one or more topics in its index. While text searching can find words or phrases within the topics of a hymn, topic selection only matches hymns with the entire topic assigned to the hymn. For example, text search for “Christ” will find all topics related to “Christ” while selecting “Christ – Blood” from the list of topics will only find hymns related to the blood of Christ.

- Hymn Grid

Hymnal	#	Title	Key	Pattern	Start Pitch	Start Beat	Time	Parts
HFWS	01005	Farther Along	F	3c	M1	7	9/8	Title.v1.v2.v3.v4.Chorus
HFWS	01006	Magnify, O Magnify!	G	4	DO	1	4/4	Title.v1.v2.v3
HFWS	01007	Hosanna	G	4	DO	4+	4/4	Title.v1.v2.Chorus
HFWS	01008	How Long Till The Morning?	Em	4	DO	4	4/4	Title.v1.v2.v3.Chorus

The Hymn Grid lists all hymns that have been imported into Presentation Creator from any hymnal. If filters or text search are enabled, only hymns that match are visible.

- Scripture Box

Matthew 21:9

The Scripture Box lists all scripture references for the selected hymn.

- Topic Box

Praise/Adoration - Of Christ

The Topic Box lists all topical references for the selected hymn.

- Verse Text Box

Verse 1: Hosanna, hosanna, hosanna in the highest; Hosanna, hosanna, hosanna in the highest;
 Verse 2: Glory, glory, Glory to the King of kings; Glory, glory, Glory to the King of kings;
 Chorus: Lord, we lift up your name, with hearts full of praise; So be exalted, O Lord, my God, Hosanna in the

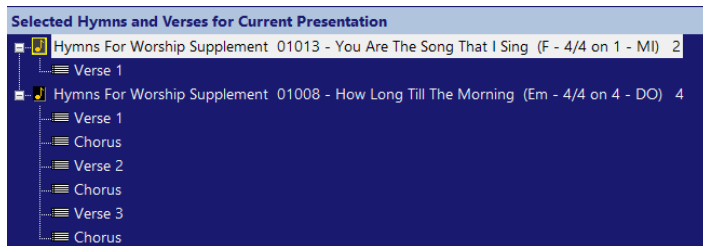

The Verse Text Box shows all of the text for all portions of a hymn.

- Individuals Box

Arranger: Reid Lancaster
 Composer: Carl Tuttle
 Lyricist: Carl Tuttle

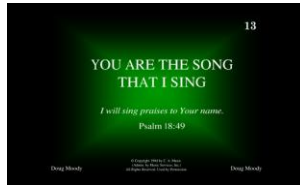

The Individuals Box lists all individuals who relate to the selected hymn (composer, lyricist, copyright holder, etc.).

- Selected Hymn Tree

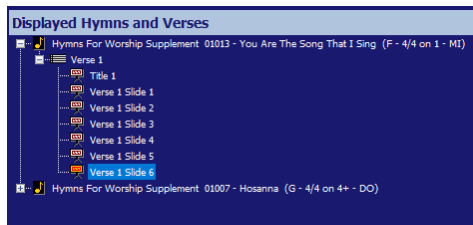

The Selected Hymn Tree lists the hymns that have been added into (or opened into) the current presentation. The + next to each hymn displays the portions of the hymn (in order) that will be displayed or exported.

- Presenter Image (only displayed while the Internal Viewer is visible)

A duplicate image of the Image Viewer Window is shown on the main window unless it is hidden using the Presentation->Internal Viewer->Presenter Image menu option. This allows the user to see what is being projected without needing to view the projection screen or secondary monitor.

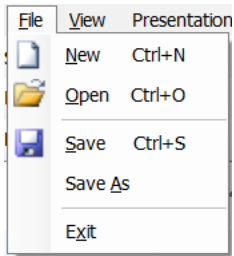

- Displayed Hymn Tree (only displayed while the Internal Viewer is visible)

As a hymn is loaded from the Selected Hymn Tree its portions and each individual slide is loaded into the Displayed Hymn Tree to allow movement between the various slides.

Menu Bar

File Menu

The File Menu contains items related to storing and loading of the Selected Hymn Tree.

New

Resets the Selected Hymns Tree to start a new presentation.

Open

Opens a saved selected hymns list and restores the selections to the Selected Hymns Tree.

Save

Saves the current items from the Selected Hymns Tree to a file allowing transfer to another computer or reloading in the future. If a file has been opened previously, the file is overwritten with the current selections.

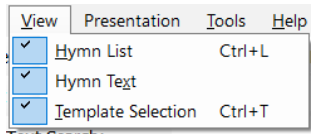

Save As

Saves the current items from the Selected Hymns Tree to a new file name selected by the user.

Exit

Closes Presentation Creator.

View Menu

The View Menu relates to visible items on the main window.

Hymn List *Ctrl-L*

Shows or hides the Hymn Selection List. Pressing Ctrl-L also changes the display of the Hymn Selection List.

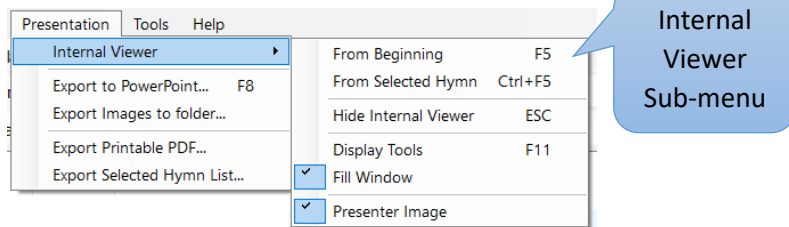

Hymn Text

Shows or hides the text sections of the Hymn Selection List. For those who have less screen real estate or want to return to the look of version 1.x, this selection hides the text boxes.

Template Selection *Ctrl-T*

Shows or hides the Template Selection Bar. Pressing Ctrl-T also changes the display of the Template Selection Bar.

Presentation Menu

The Presentation Menu contains items that relate to viewing or exporting of the selected hymns.

Internal Viewer Sub-menu

The Internal Viewer Sub-menu provides options related only to the use of the Internal Viewer for visualizing the current presentation.

From Beginning F5

The From Beginning option can also be selected by pressing the F5 key. This displays the Internal Viewer (if not already visible) and shows the first slide of the first hymn from the Selected Hymns Tree.

From Selected Hymn Ctrl-F5

The From Selected Hymn option can also be selected by pressing the Ctrl-F5 key. This displays the Internal Viewer (if not already visible) and shows the first slide of the currently selected hymn on the Selected Hymns Tree.

Hide Internal Viewer ESC

If the Internal Viewer is currently visible the Hide Internal Viewer option causes it to be hidden. The current position within the list of hymns or displayed slides is not changed. Pressing ESC also hides the internal viewer.

Display Tools F11

The Display Tools option is checked/unchecked to show/hide the tools menu on the Internal Viewer Window. Pressing F11 also shows/hides the tools menu.

Fill Window

By default, Presentation Creator keeps the aspect ratio (x-to-y scaling) of the slide images when visualizing them via the Internal Viewer. If the Fill Window option is checked, the image will be stretched or shrunk as needed to completely fill the current size of the Internal Viewer Window. **NOTE: Using this option will easily distort the hymn slide image.**

Presenter Image

The Presenter Image option is checked/unchecked to show/hide the Presenter Image on the main window while the Internal Viewer is displayed.

Export to PowerPoint... F8

The Export to PowerPoint option (also available by pressing F8) allows the selection of a file name to which the selected hymns' slides are exported in a PowerPoint 2007 (PPTX) format. This format is also compatible with some other presentation applications. Wikipedia's list is found here:

[https://en.wikipedia.org/wiki/List_of_software_that_supports_Office_Open_XML#Presentation_documents_\(.pptx\)](https://en.wikipedia.org/wiki/List_of_software_that_supports_Office_Open_XML#Presentation_documents_(.pptx)).

Export Images to folder...

The Export Images to folder... option allows the user to select a folder name to which the slide images will be written in an ordered format so that viewing in order by name will match the normal order of presentation.

Export Printable PDF...

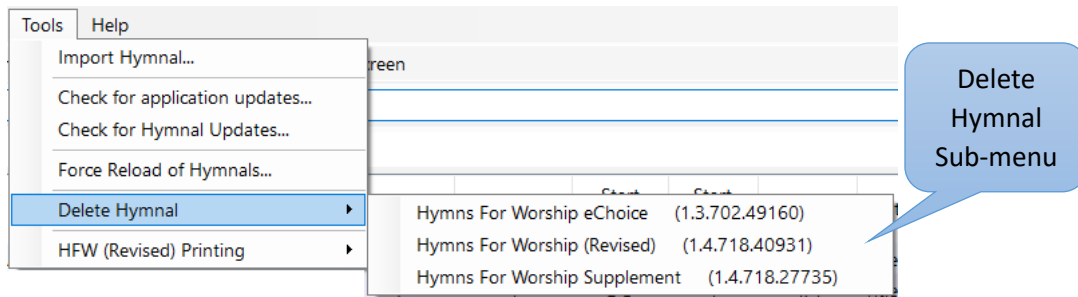

If any hymns are selected the printable PDF for the hymn is available. Selecting the Export Printable PDF option will ask for a file name to which the combined PDFs of the selected hymns are written.

Export Selected Hymn List...

If any hymns are selected, this option is available. Selecting this option will ask for a file name to which a printable list of the selected hymn verses will be written. The file is in HTML format which can be opened in an internet browser. If internet connectivity is not available the file will be larger because it includes all of the styling information.

To use the list in Word or Excel, open the file in the internet browser then select all of the text. Open your word processor or spreadsheet and paste the text. This should keep most of the formatting that is visible in the browser.

Tools Menu

The Tools Menu provides various maintenance tasks for the Presentation Creator application.

Import Hymnal...

The Import Hymnal option allows the importing of new hymnals (or individual eChoice hymns).

Check for application updates... Requires Internet Access

This option checks for an update to the Presentation Creator application. The application is periodically updated to add new features and fix problems. **It is important to keep the application up to date.**

Check for hymnal updates... Requires Internet Access

This option checks for updates to any of the currently loaded hymnals or eChoice hymns. If there are updates to perform the total size of the files to be downloaded will be calculated. The time taken to download, extract, and apply the updates is directly proportional to the total size. It is possible to cancel the update process after the size is calculated but not once the first update starts to download. **Always perform the application update prior to the hymnal updates for best results.**

Force Reload of Hymnals... Requires Internet Access

This option downloads the latest version of each hymnal and forcibly replaces the existing copy. While this should not be necessary with normal use, occasionally a hymnal update may hang while downloading, extracting, or applying the update. If this occurs and there are issues with using the hymns a Force Reload may correct the issue. Be aware that this can take a long time depending on the number of hymnals loaded and their current size. **Always perform the application update prior to the hymnal updates for best results.**

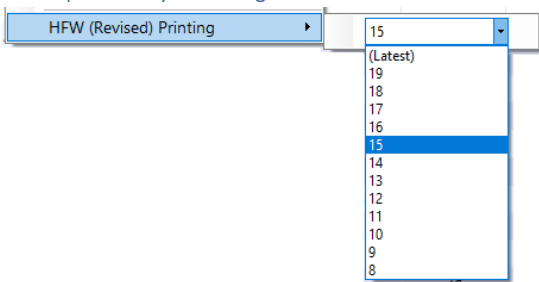

Download Compatibility Pack Requires Internet Access

If no Microsoft PowerPoint 2007 or later application is installed and the Compatibility Pack is not already installed, this option opens the default web browser to the location where the Compatibility Pack may be downloaded.

Delete Hymnal Sub-menu

Each hymnal that is currently imported is listed with its current version number. To delete the hymnal from the application, select it and follow the prompts.

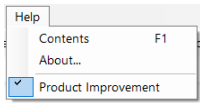

HFW (Revised) Printing Sub-Menu

If the Hymns For Worship (Revised) hymnal or one of its individual hymns has been imported, this menu option appears. Changes to hymns have occurred over the course of the long life of the hymnal. Some changes are the addition of

verses, some are changes to key or time signature, others are changes to the entire arrangement. To match the books that a congregation is using every version of each hymn has been included in Presentation Creator. Setting this menu option will automatically select the version of the hymn that matches the congregation's hymnal regardless of new versions that might occur in future printings.

Help Menu

Contents... F1

This option opens the Presentation Creator Manual using the default PDF viewer application. Pressing F1 also opens the manual.

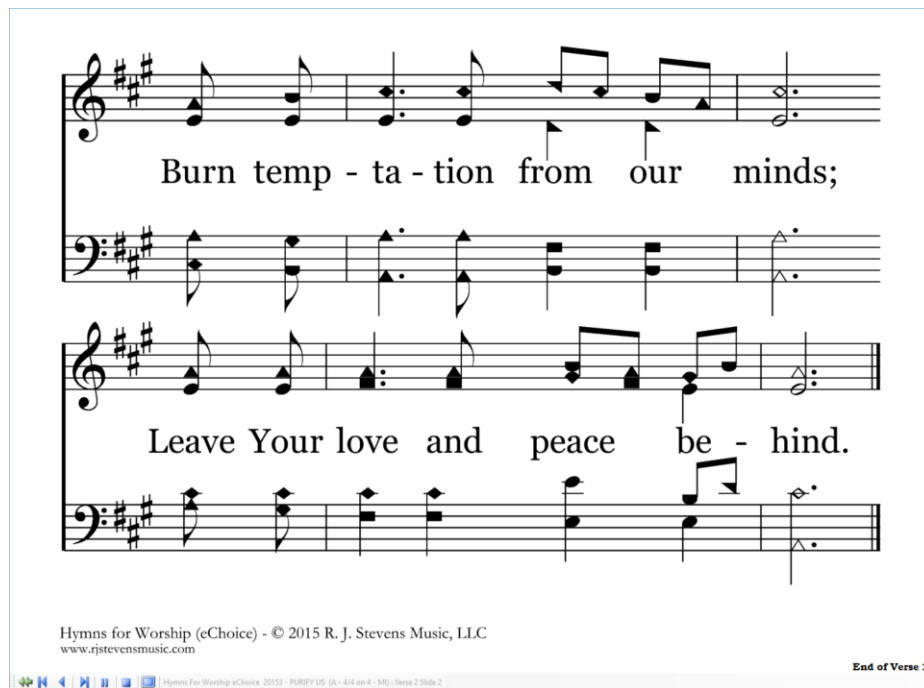

About...

The About Box provides version information, helpful locations for troubleshooting Presentation Creator, and other useful aids. Be aware that the About Box scrolls vertically to allow more info to be presented.

Product Improvement

R. J. Stevens Music is committed to improving the usage and features of Presentation Creator. As part of this commitment to excellence information related to the use of the product is helpful in determining what parts of the product should be targeted for update. If this menu item is checked periodically the usage data from Presentation Creator will be sent to R. J. Stevens Music via the internet.

Presentation Creator's Internal Viewer Window

The screenshot displays a musical score for a hymn. It features two systems of music, each with a treble and bass staff. The lyrics are: "Burn temp - ta - tion from our minds;" and "Leave Your love and peace be - hind." The music is in G major (one sharp) and 4/4 time. At the bottom, there is a copyright notice: "Hymns for Worship (eChoice) - © 2015 R. J. Stevens Music, LLC www.rjstevensmusic.com" and a status bar indicating "End of Verse 2".

Parts of Presentation Creator's Internal Viewer Window

Slide Area

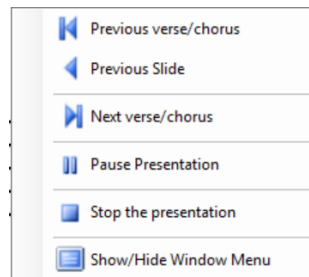

The Slide Area shows the image for the selected slide of a displayed hymn.

Tools Bar

The Tools Bar is only visible when the Presentation -> Internal Viewer -> Display Tools option is checked. It has buttons that can be used to maneuver through the slides being displayed.

Context Menu

The Context Menu (accessible by right-clicking on the Internal Viewer Window) has the same actions as the Tools Bar and is useful when the Tools Bar is hidden.

Internal Viewer Tools

Move to prior hymn.

Move to the beginning of the current hymn portion.

Move to the previous slide.

Move to the next hymn portion.

Blank the viewer.

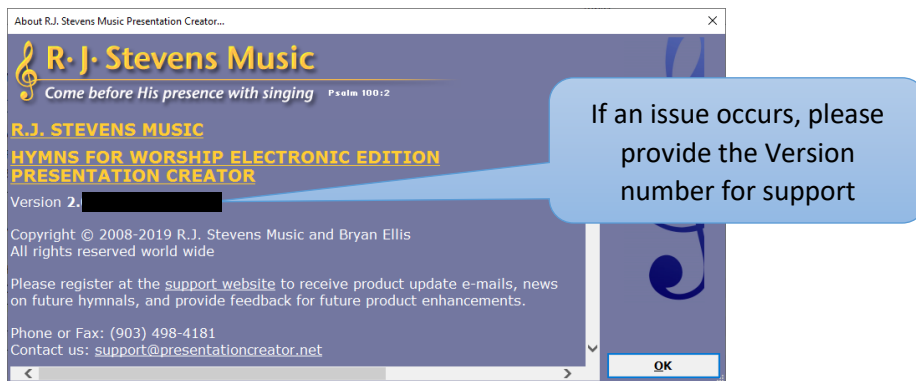

Stop the viewer.

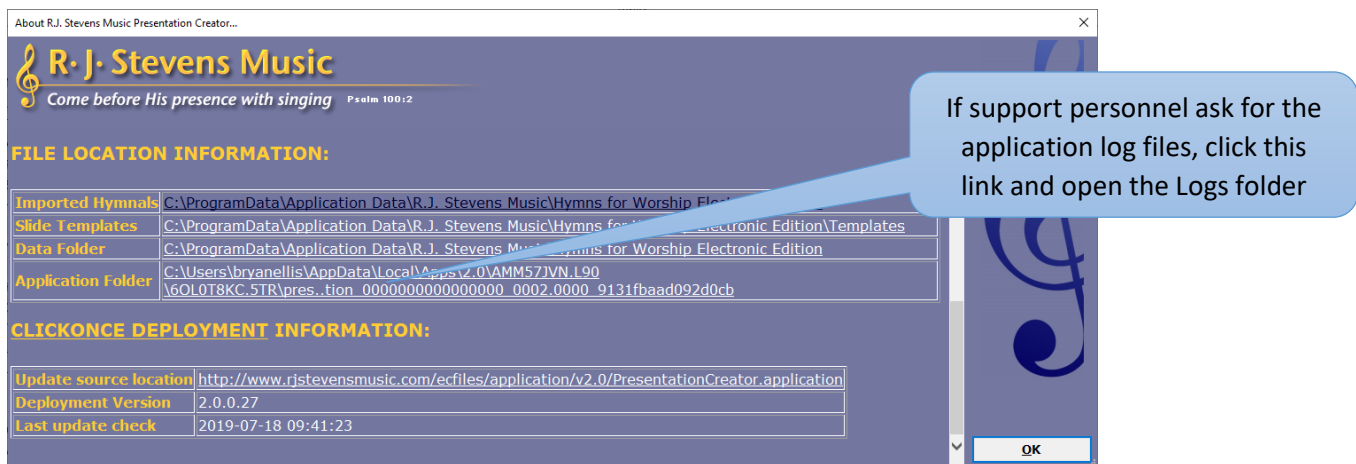

Show/hide the window controls for the Internal Viewer window allowing movement and sizing.

Presentation Creator About Box

The About Box provides the ability to see the version number and other support-related information. The primary area of the window scrolls down to show more information:

Important Folders

The Imported Hymnals folder is a link to the Windows file system location that holds the imported hymnals.

The Slide Templates folder contains the PowerPoint files which are templates used when exporting to PowerPoint.

The Data folder is folder where the application stores its data. Most installs have the same folder for the Imported Hymnals.

The Application Folder is where the current version of Presentation Creator is installed. Each time the application is run various technical details are written to a log file in case an error occurs. To find these files, click the Application Folder link then open the Logs folder.

ClickOnce Information

The application is installed and updated using a Microsoft technology called ClickOnce. The update source location is where the application can be installed from if needed.

Using Presentation Creator

There are two primary methods of using Presentation Creator to augment song worship.

- Export to PowerPoint (or folder)

The Export method allows the selected hymns to be exported to PowerPoint format for viewing with a separate application. This method is normally used when merging song slides with those of a sermon, announcements, or other service-related information.

If planning to export the selected hymns, any method for selecting the hymns may be used.

- Internal Viewer

The Internal Viewer method allows hymns to be viewed within the application and facilitates services where the hymns to be sung are not known ahead of time. The primary use of this method is for song worship services where leaders choose their songs and announce them just before they begin to lead. Some congregations use this method for all of their services. It is simply a matter of preference and the user's proficiency with the application.

If using the Internal Viewer, the best method for selecting hymns is via Expert Mode.

Selecting Hymns via the Hymn Selection List

The Hymn Selection List contains all of the hymns currently imported into the application. The list may be sorted, filtered, and searched to find the hymn that is desired. Once found, right-click the hymn's row to choose which parts of the hymn are to be added to the list.

Sorting

Hymnal	#	Title	Key	Pattern	Start Pitch	Start Beat	Time	Parts
--------	---	-------	-----	---------	-------------	------------	------	-------

Left-clicking the column headers (shown above) will sort the list of hymns by that column. Left-clicking the same header again will reverse the sort from ascending to descending. The sort direction is indicated by an arrow on the column header of the column that is sorted.

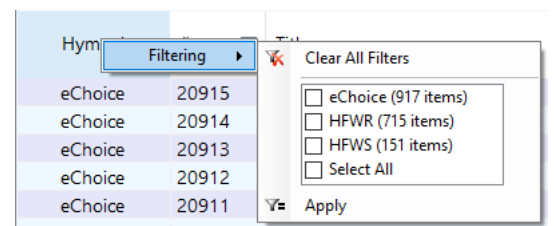

Ascending sort

Descending sort

Filtering

To shrink the number of hymns by various criteria the list provides the ability to filter by the hymnal, key signature, beat pattern, starting pitch, starting beat, time signature, or hymn parts. The number and title cannot be filtered in the list. To filter by a column, right-click the column and select one or more values in the Filtering sub-menu then click Apply. The hymns listed will change to match the new filter. To reset the column's filter, in the Filtering sub-menu select Cancel.

Searching

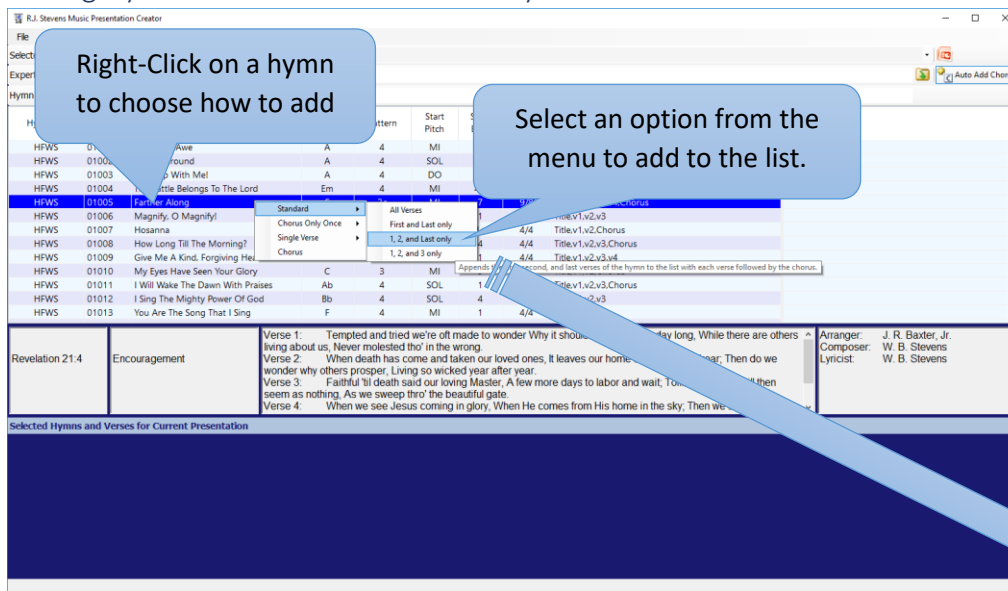

The Hymn Text Search box allows entry of a word or phrase. The columns in the list as well as the Scripture, Topic, Verse Text, and Individuals boxes are searched for the word or phrase. Matching hymns in the list will have the word or phrase highlighted wherever it is found.

Hymn Test Search: not moved									
Hymnal	#	Title	Key	Pattern	Start Pitch	Start Beat	Time	Part	
eChoice	20774	I SHALL NOT BE MOVED	A	4	M1	1	4/4	Title+1+2+3+Chorus	
Harmon	20565	(He Heals My Joy)	D	2b	5C5	6	6/8	Title+1+2+3+Chorus	
Exodus 33:2	Christ - Savior	Verse 1 - A wonderful Savior is Jesus my Lord, A wonderful Savior to me, He hideth my soul in the cleft of the Rock - not moved. He giveth me strength as my day. Verse 2 - A wonderful Savior is Jesus my Lord, He taketh my burden away, He holdeth me sure, and I shall not be moved. He giveth me strength as my day. Verse 3 - When clothed in His brightness, transported I rose To meet Him in clouds of the sky, His perfect salvation, His wonderful love I clothed with the millions on both.					Composer: Fanny J. Crosby Lyricist: Fanny J. Crosby		

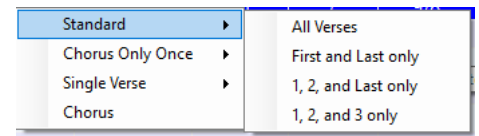

Selecting by Topical Index

Hymns can be listed under one or more topical index items. While searching by text will search within the topic also, selecting the topic from the Topic Selection list provides a much more exact method of finding all hymns for a given topic.

Adding Hymn Portions to the Selected Hymns Tree

Once the desired hymn has been found in the Hymn Selection List the user may right-click on the hymn to select what portions of the hymn in what order and add them to the Selected Hymns Tree. The options that may be selected vary depending on the hymn. For example, if the hymn does not have a chorus the option to add the chorus is not in the menu.

To the right is an image of a menu for a hymn with 4 verses and a chorus.

There are two options that add the entire hymn. Other options add only specific parts of a hymn (i.e. a single verse or just the chorus).

Entire Song Options

These options add verses (and chorus if part of the hymn) then follow with other optional portions such as Coda and Sanctus.

- Standard – Selections in the Standard sub-menu add each verse with the chorus following.
- Chorus Only Once – Selections in this sub-menu add all verses then the chorus only once at the end.

Single Verse Options

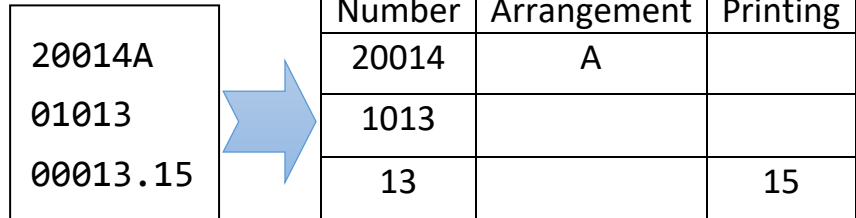

These options only add a specific part of a hymn. If a verse is added, only the verse (no chorus or optional portion) is added to the list.

- Single Verse – Displays only the selected verse
- Chorus – Displays the chorus with no verses
- Coda – Adds only the coda
- Sanctus – Adds only the sanctus

How Hymns are Numbered

A hymn number consists of multiple parts:

- Number
- (optional) Arrangement
- (optional) .
- (optional) Printing

The number is 3 to 5 digits long matching the number in the book. The arrangement is optional and is a letter. If there is a second portion to the number there is a period separating them. The printing is optional and if specified indicates the first printing matching the hymn.

Hymns from the Hymns for Worship (Supplement) begin at 1001 to avoid conflicts with the numbers in Hymns for Worship (Revised). Hymns for Worship (eChoice) begins in the 20000's to avoid duplicating any hymns in either of the other hymnals. Many hymns in eChoice have multiple arrangements so there is more use of letters at the end of the numbers. Any eChoice hymn lower than 20152 is an alternate arrangement for a hymn that is printed in the Supplement.

Hymns for Worship Revised Electronic Edition Designation for Varying Arrangements

In order to "match" a newer arrangement of a hymn from Hymns for Worship Revised printed edition with the electronic edition, a designation or suffix is provided in Presentation Creator, at the end of the song number which indicates when the new arrangement was released.

For example, the "15th printing" had several hymns which were enhanced with an additional verse, descant, arrangement, etc. Those hymns are song numbers:

- 13.15 (Alleluia)
- 41.15 (Fairest Lord Jesus)
- 51.15 (Our Father and Our God)
- 92.15 (Others)
- 701.15 (Walk Beside Me)

The designation or suffix (.15), indicates that from the "15th Printing" and each subsequent printing, that particular arrangement remains unchanged. Any song used prior to the "15th Printing" is indicated without the suffix. In other words, if a congregation has an earlier printing of Hymns for Worship Revised, they should use song numbers 13, 41, 51, 92, or 701 and not 13.15, 41.15, 51.15, 92.15, or 701.15.

There's one other change that took place in the 12th Printing:

- 668.12 (The Greater Light).

Every printing since the 12th printing has the same arrangement. If a congregation has an earlier printing of Hymns for Worship Revised, they should use song number 668 and not 668.12.

The one exception to this rule is 670.7 which indicates the 7-fold Amen arrangement of The Lord Bless You and Keep You.

Selecting Hymns via Expert Mode Entry

If the hymn numbers are known, Expert Mode Entry is the fastest way to add hymns to the list. Enter the numbers separated by semicolons. It is possible to add only certain portions of a hymn or reorder portions of a hymn in the entry. To add hymns, enter the expert mode instructions, then press ENTER, or click the  button.

NOTE: Since Expert Mode is expected to be used during a song worship service where speed is key, the majority of hymns can be specified using only the numeric keypad. The semi-colon is entered by pressing the slash (/) key, the colon is entered by pressing the minus (-) key, and the chorus can be specified using the plus (+) key. Other keys are possible for different hymn portions but must be keyed using the alpha portion of the keyboard.

- To add an entire hymn (Standard, All verses) type its number.

For example: **1;534;1002**

This would add songs 1 and 534 from the Revised book and song 2 from the Supplement book.

- To add certain verses of a hymn, type its number followed by a colon then list the verses/parts to include.

For example: **1:124;534:12C3C;1002:1C3C**

This would add Revised #1 verses 1, 2, and 4, Revised #534 verse 1, 2, the chorus, verse 3, and the chorus then finally Supplement #2 verse 1, the chorus, verse 2, and the chorus.

When Auto Add Chorus is enabled , the specified parts of the hymn will be augmented if no chorus is included. As an example, adding Revised #5 (How Great Thou Art) by entering **5:14** will work differently depending on the setting of the Auto Add Chorus button:

On: This would add verse 1, the chorus, verse 4, and the chorus.

Off: This would only add verse 1 (no chorus) and verse 4 (no chorus).

- To add a blank slide, enter W (for white) or B (for black). Optional text can be specified after a colon but the text may not include a semicolon since that indicates the next section of the entry.

For example: **1;W:Prayer;534;B:Lord's Supper;1002**

This would add Revised #1, then a white slide with the text "Prayer", then Revised #534, then a black slide with the text "Lord's Supper", then Supplement #2.

Key	Hymn Portion
1-9	Verse #
C +	Chorus
L	Last Chorus (if different from other verses)
R	Refrain
S	Sanctus
D	Coda
A	Amen
; /	Hymn separator
: -	Hymn portion specifier
ENTER	Add songs to Selected Hymn List
*	Switch focus to Displayed Hymn Tree

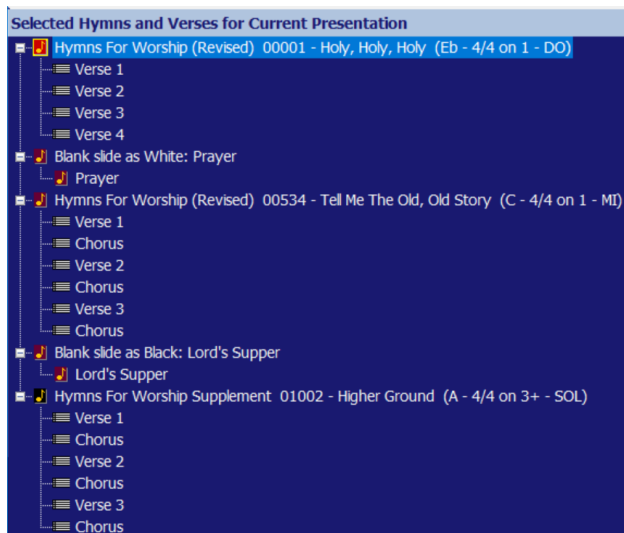

Selected Hymns and Verses for Current Presentation	
	Hymns For Worship (Revised) 00001 - Holy, Holy, Holy (Eb - 4/4 on 1 - DO)
	Blank slide as White: Prayer
	Hymns For Worship (Revised) 00534 - Tell Me The Old, Old Story (C - 4/4 on 1 - MI)
	Blank slide as Black: Lord's Supper
	Hymns For Worship Supplement 01002 - Higher Ground (A - 4/4 on 3+ - SOL)

Expert Mode Entry allows the user to press * to jump to the currently displayed hymn part in the Displayed Hymn Tree if the Internal Viewer is visible.

Rearranging the Selected Hymns Tree

The selected hymns are listed in a tree because each hymn may have one or more portions within it to be displayed. Click the + beside the hymn in order to expand its portions as shown to the right.

Expand +

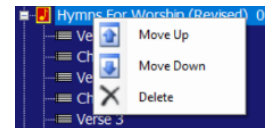

Using the final example from the Expert Mode section, we see the various hymns (and parts) that have been added. Notice that the blank slides only have one portion. Each portion of a hymn can be moved or removed as desired.

It is possible to move the hymns and hymn portions using the mouse by dragging and dropping them. For more control, the right-click menu is available.

Right-click a hymn to move it within the order or to remove it from display.

Similarly, right-click a hymn portion to move it within the order or remove it from display.

Note that these operations **cannot be undone** so replacing a removed portion means selecting and adding that hymn portion again then moving it back to the correct position.

Exporting to PowerPoint

Once hymns have been selected and arranged, the Presentation->Export to PowerPoint... option (or F8 key) is used to generate a PowerPoint presentation from the numerous images tied to each portion of each selected hymn. Once the export completes, it is possible to open the presentation in PowerPoint.

Using the Internal Viewer

An alternative to exporting the selected hymns is to view them using Presentation Creator. Unlike PowerPoint, there is no way to insert or merge other presentations with the hymns that have been selected. The only slides that can be displayed are those from the selected hymns and the blank slides that can be added via Expert Mode.

Starting, Sizing, and Positioning the Viewer

To start the viewer, press F5/Ctrl-F5 or select the From Beginning/From Selected Verse options from the Presentation -> Internal Viewer sub-menu. The viewer window is separate from the main window so that it can be positioned to a second screen or projector. If the window's title bar is not visible, press F12 or right-click the window and select the Show/Hide Window Menu button. Move the window and size it as desired. The window menu can be hidden again by pressing F12 (or selecting the menu option) again. The position and size of the Internal Viewer Window is stored so it will return to the same position the next time the application runs.

Working with the Viewer

The image being viewed is directly related to the highlighted item in the Displayed Hymn Tree. As slides are shown, the highlighted item in the Displayed Hymn Tree changes. If the last slide is displayed, new slides are loaded from the next selected hymn in the Selected Hymn Tree. When the end of the presentation is reached, a black slide is shown.

While the Internal Viewer window is displayed the user can be focused on either the Displayed Hymn Tree or the Internal Viewer window. To set the focus, left-click on whichever area is desired. The command keys are the same for both areas but mouse movements are visible to the audience when over the Internal Viewer window. The following list provides the possible keys that can be pressed to control the presentation while the Internal Viewer window is visible.

Command Key	Description
ESC	Closes the Internal Viewer Window
1	Jumps to the first slide of the specified verse (if it exists)
2	
3	
4	
5	
6	
7	
8	
9
